" "Like a Sad Song" and "I'm Sorry" apologize to forsaken lovers "Looking for Space" takes a similar tack, although coupled with a yearning to explore the world outside yourself – a theme that likely struck a chord in many listeners.. In this respect, "Fly Away"'s lament about city pressures could be considered his answer to the Beatles' "Eleanor Rigby.

"Annie's Song" goes further by explicitly linking nature and sensuality, while "Back Home Again" and "Grandma's Feather Bed" celebrate the pleasures of home and hearth.. „John Denver wasn't merely hot during the mid-'70s; he was omnipresent on radio, TV, and on-stage for anyone who'd have him.. Of course, Denver's ecological commitment is never far away in "Welcome to My Morning (Farewell Andromeda)" and "Calypso," his salute to the late French undersea explorer Jacques Costeau.

Anyone who's ever expressed themselves could relate to "This Old Guitar," on which Denver casts a wistful yet unsparing look at how the instrument influenced his life. d70b09c2d4
